PAINTS • WATERCOLORS

Watercolors ArtBerry® with UV Protection

The enriched palette's trendy colors are mixed well and combined harmoniously, providing high quality of coverage. They have enhanced color intensity and do not fade in sunlight thanks to UV protection. The box is adorned with a unique, vivid design using a thermal printing technique. This technology guarantees authenticity and protects customers against counterfeit goods. The modern packaging is equipped with a European-type hanger for easier placement using standard shop fittings and equipment.

PAINTS • FINGER PAINTS

Gel finger paints ArtBerry® with Aloe Vera

ArtBerry® gel finger paints with Aloe vera were specially designed for little kids and are perfect for painting on paper and cardboard, as well as with a special brush or sponge. The paints mix easily and smoothly to create new shades. Upon drying the colors remain vivid and lively, and your painting will acquire a glossy shine. These finger paints have a rich gel consistency that prevents spillage even if the container is knocked over.

Fibre-tip pens ArtBerry® Easy Washable

Classic fibre-tip pens ArtBerry® with washable ink. The hermetic case made of polypropylene does not form sharp cleavages during breakage and prevents the ink from drying out, providing an extended shelf life of 5 years. The tip with width lines 1-2.5 mm, stands a strong pressure, keeps the shape for a long period. Water-based ink is odorless, well washable at 40 degrees and easily washed off from household surfaces. Markers are equipped with vented caps. The European quality certificate (CE) guarantees the absence of toxic substances.

Modelling clay ArtBerry® with Aloe Vera

Modelling clay ArtBerry® — the world's first modelling clay with Aloe vera. When using ArtBerry® modelling clay, your hands will feel great, thanks to the bactericidal properties of the clay and the moisturizing effect of Aloe vera. The clay is manufactured from environment-friendly materials. A convenient cardboard package with windows makes the colors visible. Plastic mat (correx) is more efficient. Unlike cardboard, it will not show any grease spots. The marketable appearance and plasticity of the clay are enhanced by a special individual flow-pack packaging for each tick of clay. The modelling and decoration package includes a plastic knife.

Soft modelling clay ArtBerry® with Aloe Vera

Soft modelling clay ArtBerry® was specially designed for younger kids. It is very plastic, does not harden upon contact with air, and makes modelling of the smallest elements easy. Natural components of the soft modelling clay include high quality corn starch (glutenfree). It gives the clay its softness and plasticity. In addition to Aloe vera, the clay contains petrolatum oil, which is widely used in cosmetic products for children. The plastic structure enables children to «paint» with clay.

MODELLING PRODUCTS • BIO MODELLING DOUGH

BIO modelling dough ArtBerry® with Aloe Vera

4 pots by 35g

6 pots by 35g

8 pots by 35g

Bio Modelling dough ArtBerry® with Aloe vera has no rival. Bio Modelling dough is made of vegetal ingredients. Its main component is natural dough made from durum wheat with olive oil. Food coloring is used to provide a lively palette. The natural composition of Bio Modelling dough defines its main properties: it dries upon contact with the air and cracks may appear on the figurines. Drying takes an average of 24 hours depending on the level of detail. To preserve the elasticity of Bio Modelling dough, keep it in a tightly closed container.

4 pots by 100g

6 pots by 100g
